MANISH CHOUHAN

AI Automation & Product Developer | Founder, Devoq Labs

Email: manishchouhan123@gmail.com | LinkedIn: linkedin.com/in/manish-chouhan-2301a7230 | GitHub: github.com/Manish-10275

PROFESSIONAL SUMMARY

AI automation specialist, full-stack developer, and entrepreneurial product builder. Experienced in delivering practical software systems, LLM integrations, and coordinating agile cross-functional engineering teams.

PROFESSIONAL EXPERIENCE

Founder & CEO - Devoq Labs June 2025 - Present

- Founded independent digital and AI development studio creating customized web platforms and AI systems.
- Directing client sprints, technical requirements scoping, and software delivery architecture.
- Built unified speech services, SaaS automation backends, and full-stack web applications.

Project Manager - JJGillespie.com Nov 2025 - Present

- Directing distributed engineering sprints, task prioritization backlogs, and agile milestones.
- Aligning commercial client objectives with engineering implementation roadmaps.
- Standardized version-controlled Git workflows and documentation to maintain delivery velocity.

Associate Project Manager Intern - Excelerate May 2025 - June 2025

- Prepared weekly sprint tracking dashboards and facilitated technical review meetings.
- Coordinated requirement backlogs and helped streamline cross-functional developer communication.

Student Intern - Scaler School of Technology | Python Intern - Codveda 2025

- Developed automated Python scripts for parsing text datasets and data processing utilities.

EDUCATION

Indian Institute of Technology, Madras (IIT Madras) 2025 - 2029

Bachelor of Science (BS) in Data Science and Applications
Coursework: Machine Learning, Statistical Algorithms, Database Systems, Linear Algebra
Core Team Member, Paradox IIT Madras 2026 - Operations & Logistics

Harvard University DCE

ALB Coursework in Business Administration & Management

TECHNICAL SKILLS

AI & Automation: Python, LLM API Integration, AI Agents, Workflow Automation, Prompt Engineering
Development: TypeScript, JavaScript, React, Next.js, Node.js, Express, REST APIs, Tailwind CSS, Git
Product & Management: Agile / Scrum, Sprint Scoping, Technical Documentation, Stakeholder Communication
Data & Analytics: SQL, Data Analysis, Python Data Processing (Pandas), Excel, Power BI

FEATURED TECHNICAL PROJECTS

HBB Mutation Analyzer: Bioinformatics tool for HGVS sequence parsing, ClinVar assertions & Gemini research retrieval.

Ad Automation OS: Unified operations dashboard for marketing connectors, rule automation & audit logging.

Devoq Labs Speech Services: Backend API consolidating STT and TTS engines into a unified endpoint.

AgriBuddy: Computer vision plant disease diagnostics prototype for crop leaf anomalies.

HONORS & CREDENTIALS

- Kaggle AI Agents Intensive Course | Google AI Learning Programs | Neoteric Summit Dubai 2026 Delegate
- Published Author of 3 poetry & creative collections exploring human emotion and reflection.
